

Intended Use

The AP500 is a powerful, but inconspicuous purification system that utilizes tested ActivePure® Technology to reduce viruses, bacteria and other contaminants in the Ambient air and surfaces in smaller rooms or hard to reach areas.

Benefits

- ActivePure® Technology destroys over 99% of all surface and airborne contaminants
- Eliminates common triggers of allergies, asthma, and irritants to those with sensitive immune systems
- Proven to kill bacteria, viruses, mold and fungi
- Destroys VOCs, smoke and odors without ozone
- ActivePure is the only air purification technology recognized exclusively, worldwide, as Certified Space Technology.
- Operates 24/7

How it Works

- Our proprietary **ActivePure® Technology** uses light waves and a catalytic process to produce scrubber ions and hydro peroxides that destroy contaminants on surfaces and in the air
- ActivePure® has been tested in independent labs and proven effective on bacteria, viruses, mold and fungi on surfaces and in the air

Unique Features

- Coverage up to 500 sq. ft.
- Whisper-silent operation
- Multi-level purification filtration (ActivePure, Ionization)
- ActivePure® Technology is used by NASA on the International Space Station and is the powerful enough to provide full protection throughout small areas

Target Customer

- Businesses or other public indoor spaces that are concerned with surface contamination or air quality
- People who suffer from allergies and asthma
- Those with sensitive immune systems
- Anyone concerned with indoor environmental quality or their health

Specifications:

AP 500	00693 Model A1028A <small>*NOTE: this unit does not meet California requirements and cannot be shipped to California.</small>
Technology	ActivePure® Ion Generation
Electrical	Supply Voltage: 120V~, 60 Hz, .18 Amp, Power Consumption: 13 Watts*
Mechanical	One control switch, on/off Negative Ionizer
Dimensions	6"W x 12"H x 4"D (15.24 cm W x 30 cm H x 10 cm D)
Weight	2.9 lbs (1.3 kg)
Coverage	Up to 500 sq. ft.
Warranty	Limited 3 Year Warranty

The ActivePure® Technology built into each AP500 is based on a variation of the technology originally developed for use on the International Space Station and is recognized as the exclusive Certified Space Technology™ in its category.
